Three Bedford county boys enlisted in the service of Uncle Sam at Cumberland on Tuesday, all selecting the infantry branch; they are Simon S. Bryan of Saxton and Charles Logston and George W. Barthelow, of Chaneyville.

Some of the small boys of this place are becoming so much absorbed in their evening games that they forget it is trespassing when they take "short cuts" through private lawns and gardens. They should remember there are fines attached for too much fun of this nature.

An Easter market will be held by the ladies of the Presbyterian church in the Shuck Building on Juliana street tomorrow, beginning at 10 o'clock and continuing until evening. Colored eggs for Easter and the usual things offered at a market will be shown. You are cordially invited to be present.

You will be pleased with our neat job work. Give us a call.

## B. H. S. GRADUATES

Eight Young People Pass Successful  
Examinations—Commencement.

Last Saturday afternoon the Senior Class of the Bedford High School completed their final examinations, all receiving creditable averages. The valedictory will be delivered by Miss Abigail Blackburn, daughter of Ex-Prothonotary E. Howard Blackburn, and the salutatory by Charles Way Lutz, son of Postmaster John Lutz, the difference in the averages of the two being one-sixth. The other members of Class '08 are as follows: Besse Victoria Corle, daughter of Mrs. Mary J. Corle; Anna Eliza Imier, daughter of Sheriff J. P. Imier; Mary Rebekah Otto, daughter of A. J. Otto; Lulu Virginia Naus, daughter of Frank E. Naus; Ruth Lee Davidson, daughter of John W. Davidson, and John George Jordan, son of F. W. Jordan, Sr.

Much credit is due these young people for their earnest efforts during the past year. The motto of the class is "Esse quam videri," (to be rather than seem), their colors being orange and black. The baccalaureate sermon will be delivered by Rev. H. B. Townsend in Assembly Hall Sunday evening, April 26. Commencement exercises will be held Tuesday evening, April 28.

## Primary Notes

One borough that promised Mr. Furry 18 votes gave him none and his manager, Deputy Revenue Collector Price, can't understand. Two weeks time made the difference. Furry was knifed in the back by his supposed friends.

Brice fell 527 votes short of his ticket. Doesn't look as though even the Republican voters of the county want present conditions to continue in the administration of justice, especially during the season of granting licenses.

Blake carried Hopewell. Factory Inspector Helsel said if he had had another day in Bedford township Furry would have had still less votes. Wonderful what mighty leaders are rising up!

If Blake had an organization back of him he would have made things look more bleak for the icicle man. More than a thousand Republican voters declared their independence at the recent primary. Look out for the coming crash!

Health Officer Edgar R. Horne landed his two men.

Joe Pete Gates and D. P. Thomas, as usual, came into the county to help conduct the primaries. What would the organization do without these Washington and Harrisburg statesmen? The whole triumvirate will likely be here in November.

## Brightbill-Diehl

At the home of Mr. and Mrs. Adam H. Diehl near Bedford at 7 o'clock last evening, their second daughter, Miss Avis M., was united in marriage to Jonathan Furl Brightbill of this place. The ceremony was performed by Rev. J. Albert Eyer in the presence of a few invited guests.

The groom is a son of Mr. and Mrs. Frank H. Brightbill and is engaged in business with his father. Both are well-known and popular young people and have the best wishes of a host of friends. They will reside at No. 311 West Pitt street, where the groom has a cosy home ready for their occupancy. The Gazette extends congratulations.

## Anna E. Williams

Miss Anna E. Williams, for several years stenographer for the Blackburn-Russell Company, died at the home of her parents in Danville Thursday night, April 9, of tuberculosis.

Miss Williams came to Bedford in the fall of 1903 to accept a position as stenographer with H. C. Heckerman, then in the wholesale grocery business. When Mr. Heckerman sold to the Blackburn-Russell Company, Miss Williams retained her position with the new firm.

After an illness of a couple weeks Miss Williams left here for her home about the middle of January. She grew weaker as the dread disease continued its course until her death. Miss Williams was an active and energetic young woman of more than ordinary ability, and her cheerful disposition and exceptional manners won for her a circle of friends. She was a member of the Reformed church and was attentive to her church duties. She is survived by her parents and one brother.

## HECKERMAN LETTER

A Visit to the Oyster Country, Eastern Shore, Maryland.

Crisfield, Md., April 8, 1908. Crisfield is on a peninsula away down on the eastern shore of Maryland. The town has about five thousand and when all are at home, but so many of those living here are either fishermen or oystermen that one never sees half the inhabitants. The P. R. R. now, formerly the Eastern Shore R. R., built itself into this beautiful section in 1865 and when they got here they built a wharf, and that is where all the shipping is done from. The railroad runs out as far as it can, that is, to the jumping off place. Pocomoke Sound is on one side of the town and Tangier Sound on the other. Tangier Sound furnishes lots of oysters, which have a reputation all over the land as being the finest flavored oysters.

They have two banks here, four white and one colored churches. The streets are made of oyster shells, also the country roads for miles out. Many fine private residences are to be seen in the suburbs; these mostly have lovely lawns and as the cattle and pigs are not to be seen the grass is beautiful even now. I saw several mowing their lawns this morning. I met N. W. Tawes, who has lived here sixty-six years, and now lives within a few hundred yards of where he was born; he has raised ten children, all living here, all well, and Mr. T. looks as if he was good for another sixty years. He says that it is because there has been local option here for thirty years and it has been that long since he has had a drink, a smoke, or a chew.

The city water comes from some half dozen artesian wells but the water is not very good, it is brackish or slightly salty. Those living here catch rain water for drinking and with some ice in it it is the best of water. The ice plant here has a well twelve hundred feet deep which flows a strong stream all the time; the water is tepid and in winter quite warm enough to bathe in. This plant has a capacity of thirty tons a day and they sell to the city about twenty-five tons per day; the balance is shipped to Pocomoke, Snowhill and other nearby towns.

I hear some one say, "Why should a town of five thousand use so much ice?" This is the greatest market for soft-shell crabs in the world; the season will soon be here and the fishers are in high glee. They catch these crabs and put them in floats, hundreds and thousands of them in a single float, which are made of lath; here they are kept and as fast as they shed their shells they are taken out of the floats, packed, and started north—some going all the way to Denver, Col. These little fellows are all alive and remain so until they are washed off and dumped into a frying pan with melted butter in some far away nook of our great country. The old shells are thrown out; the floats must be attended to every day once or twice as the crab, after he peels off, will form another shell in about twelve hours and then he is no good as a soft-sheller. The crab taken out of water without a shell will not form another.

Carload after carload of these soft-shell crabs will be sent by fast freight each morning in a couple weeks from this time; today they are shipping hundreds of barrels of shad and other fish. I saw nice fresh herring at six cents a dozen this morning. The oyster season is about over; many thousands of barrels of these Tangier oysters are shipped during the season, while the oysters, caught down the Chesapeake Bay, shucked here, and sent north by the tub and barrel, must amount to something, judging from the huge piles of oyster shells that one sees about. Most of these are planted, or put overboard, to catch the seed oysters. These little fellows are being washed higher and higher, but they catch hold of these shells and thus save themselves.

J. W. Disharoon, the wholesale grocer of twenty-seven years in one stand, is the owner of the Crisfield Inn and boards there. He is the wealthiest man in the town and watches his business like a hawk but he always has time for a social word and a chair for you to rest on. W. E. Ward and Bro. are the wholesale

## The Story of a Medicine.

Its name—"Golden Medical Discovery"—was suggested by one of its most important and valuable ingredients—Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famous "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots now growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts, and are recommended by the very highest authorities on the subject.

"Golden Medical Discovery," a little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompanied with catarrhal discharges, hoarseness, sore throat, lingering, or hang-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It will cure the affections that lead up to consumption, if taken in time.

candy men (and they are big-hearted boys), having just moved into their new brick building.

They don't have any good springs hereabouts as the country is flat and I am told that there are only two small hills in the county. Princess Anne is the county seat of Somerset county.

Yours truly,

## DOCTOR USES D. D. D. IN HIS PRACTICE

Eminent Physician Says This Great Liquid Prescription is Certain Cure for Eczema.

Still another Eczema specialist comes forward in enthusiastic praise of D. D. D. Prescription, the wonderful external remedy which cures Eczema and other similar diseases like magic. He is Dr. C. B. Holmes of Silver City, Miss., and in summing up his impressions of the startling cures D. D. D. has effected, he says: "I have been using your D. D. D. for four years with gratifying results. 'TIS AS NEAR A SPECIFIC FOR HERPES, ECZEMA, PSORIASIS, ETC., AS IS QUININE FOR MALARIA'."

Dr. Holmes is one of hundreds of physicians who use D. D. D. in their daily practice. The D. D. D. company allows physicians to use this remedy with the understanding that they tell their patients what it was that cured them when the terrible itch has been wiped out, the skin healed and the raw wound covered over with soft white skin. D. D. D. is not a nasty paste to smear the skin and clothing, but it is a clear liquid. It is advisable to use D. D. D. soap in connection with D. D. D. Prescription.

Is any further proof of the curative powers of D. D. D. Prescription necessary? That remedy is sold at F. W. Jordan's, Bedford, Pa. Come in and let us show you convincing proof that D. D. D. will cure your skin disease. Even if you have not decided to use D. D. D. remedy, come in and explain your case anyway.

## PRETTY THINGS TO WEAR

Mother-of-pearl belt buckles, cuff links and collar pins are popular.

The "sugar loaf" is the name of one of the new shapes in headgear.

Black is a good deal used for restaurant and other semi-dress toilets. The wools and linens both follow the same lines in shapes of coats and skirts.

Shawl points are becoming very familiar in costumes with little pretension of dressiness.

The cutaway front and the pointed back are often joined in tailormades of more or less severe finish.

There is a strong tendency in the fashionable new coats of short or medium length to dip decidedly at the back.

If the fulness of the wide petticoat flounce is laid in tucks there will be no bulging to mar the smooth fit of the gown.

In veils ring dots will be the feature of the ultra styles. Chenille dots will also be popular. Standard colors will predominate in all weaves.

The lawns spattered with single roses thrown carelessly here and there are attractive, and also the ones with deep borders of roses veiled with tulle.

## Death Was On His Heels

Jesse P. Morris of Skippers, Va., had a close call in the spring of 1906. He says: "An attack of pneumonia left me so weak and with such a fearful cough that my friends declared consumption had me, and death was on my heels. Then I was persuaded to try Dr. King's New Discovery. It helped me immediately, and after taking two and a half bottles I was a well man again. I found out that New Discovery is the best remedy for coughs and lung disease in all the world." Sold under guarantee at all drug stores. 50c and \$1.00. Trial bottle free.

## He Got What He Needed

"Nine years ago it looked as if my time had come," says Mr. C. Farthing of Mill Creek, Ind. Ter. "I was so run down that life hung on a very slender thread. It was then my drug-gist recommended Electric Bitters. I bought a bottle and I got what I needed—strength. I had one foot in the grave, but Electric Bitters put it back on the turf again, and I've been well ever since." Sold under guarantee at all drug stores. 50c.

## Prohibition Cuts Salaries

The Alabama prohibition law is making itself felt in Mobile even before it goes into effect. The city and county school boards have made sweeping reductions in the salaries of teachers, to become effective with the next term.

The kindergarten, music and manual training departments are eliminated from school work; the office of assistant superintendent is abolished, and a tuition fee of \$16 annually will be charged in the high school. A committee of business men attended the meeting and urged the boards to contest the validity of the prohibition law.

Mobile fought the prohibition law in the Legislature, and some of its citizens at that time threatened to inaugurate a movement to have the city secede from the state. They are still threatening to do so, and the law will be fought in the courts, at least. Perhaps even more drastic and dramatic action will be taken.—Baltimore News

## WHAT CURES INDIGESTION

To Be Cured, Weakness of Stomach Muscles Must Be Overcome. The chief cause of indigestion is weakness of the stomach muscles and lack of gastric juices.

By taking Mi-o-na stomach tablets the stomach muscles will be stimulated and strengthened and the flow of gastric juices will be increased. Mi-o-na does not do the stomach's work; it makes the stomach strong enough to do it, and in this way completely cures the weakness so there is no further need of medicine.

No matter how severe a case of stomach trouble you have, Mi-o-na will cure it by strengthening your digestive system so that both stomach and bowels do their work as they should.

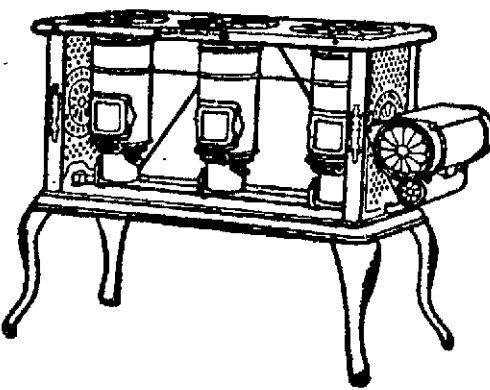

F. W. Jordan sells Mi-o-na in 50-cent boxes and guarantees to refund the money if the remedy does not cure. April 10-27.

## David Callihan

David Callihan, a veteran of the Civil War, died at his home in Johnstown on Tuesday, April 7. He was born at New Paris, this county, but moved to the Flood City before the war, during which he served in the 54th Regiment, Pa. Volunteers. His wife, formerly Miss Elizabeth Sherman, and three children survive. Interment in that city.

To have perfect health we must have perfect digestion, and it is very important not to permit of any delay the moment the stomach feels out of order. Take something at once that you know will promptly and unfailingly assist digestion. There is nothing better than Kodol for dyspepsia, indigestion, sour stomach, belching of gas and nervous headache. Kodol is a natural digestant, and will digest what you eat. Sold by Ed. D. Heckerman.

## You Will Need an Oil Stove

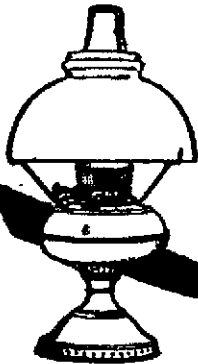

When warm days and the kitchen fire make cooking a burden—then is the time to try a New Perfection Wick Blue Flame Oil Cook-Stove.

## OUR COAL SUPPLY

President Roosevelt's recommendations to conserve the fuel supply are, therefore, most timely. According to the data collected by the United States Geological Survey the supply of coal still in the ground is sufficient to furnish our fuel requirements for many years to come. It cannot be denied, however, that the best and most accessible coal areas are now being worked and depleted at a very rapid rate and future generations will be obliged to go to deeper lying veins or mine thinner seams at a material increase in expense. Mining in the true sense of the word is a process of depletion, and in this respect differs from manufacturing and agricultural industries. We may fertilize the soil to bear increased crops or supply raw material for manufacturing purposes from afar or even foreign countries; we may maintain a reasonable timber supply by replanting our forests, but we cannot replenish the coal supply or create new iron or gold mines after the deposit is once exhausted. A careful study of the principal coal fields of the United States, which have been furnishing the major portion of cheap fuel, will readily convince the investigator that before many years the cost of producing coal will increase considerably. It is obvious that the operators of mines will endeavor to obtain every possible ton of coal from their holdings, not alone for the purpose of being reimbursed for the original cost of the land, but also for the cost of improvement and development. It is believed that by development on a larger scale this can be more readily accomplished than by small mines, and especially such as are developed without sufficient capital and are obliged to depend upon immediate profits for an existence. Small mines are but short lived and frequently are so located as to render large coal areas inaccessible or at least makes the operation of adjacent territory hazardous on account of the accumulation of water and gas in abandoned workings.—From "Federal Mining Bureau" by Carl Scholz, in the National Magazine for April.

## Rolling Eggs at the White House

The White House egg rolling is the big event of the year to Washington children. Babies, rich and poor, black and white, gather here for their annual picnic in the President's back yard. The youngsters "pick" eggs, roll them up and down the grassy slopes and sing and frolic to the music of a band. Presidents of the United States have not felt it beneath their dignity to join in the fun.

## EASTER EGGS ARE A HEATHEN CUSTOM

Like the Christmas Tree They Came From Our Anglo-Saxon Forefathers.

In our observance of Easter few stop to consider that the quaint old custom of egg-giving is a survival of Saxon times. We find many stories of eggs, hares and rabbits in Germany associated with the joys of childhood on Easter day; and in France the Easter eggs are made of manifold and costly devices. In Ireland and Scotland the children are taught to break eggs in the form of a cross. Queerest of all, colored eggs are offered at high mass in Russia. With all these precedents behind us it is no wonder that we have a gala time at Washington, and that on Easter day democracy rules supreme on the sloping White House lawn. From early morning until six at night the children roll eggs and, though no one knows who started the custom, the American child does his share in inaugurating another spring, and showing, in a material way, the joy with which the ancient festival of Easter fills mankind.—The New Idea.

Jordan takes all the risk and agrees absolutely to refund the money if anyone uses Hyomei and does not get relief. ## CHAPTER EIGHT

NOT a window of the fourteenth century yellow marble palace on the hill, with its famous garden of the nine fountains, that was not ablaze with light, glittering against a faraway background of violet mountains crowned by snow.

Outside the tall bronze gates where marble lions crouched the crowd that might not pass beyond stared, chattered, pointed and exclaimed without jealousy of their betters. Unser Leo was giving a ball, and it was enough for their happiness to watch the slow moving line of splendid state coaches, gorgeous automobiles and neat broughams with well known crests upon their doors; to strive good naturedly for a peep at the faces and dresses, the jewels and picturesque uniforms; to comment upon all freely, but never impudently, asking one another what would be for supper and with whom the emperor would dance.

"There she is—there's the beautiful young foreign lady who saved him!" cried a girl in the throng. "I was there and saw her, I tell you. Isn't she an angel?"

Instantly a hearty cheer went up, growing in volume, and the green coated policemen had to keep back the crowd that would have stopped the horses and pressed close for a long look into a plain dark blue brougham.

Virginia shrank out of sight against the cushions, blushing and breathing quickly as she caught her mother's hand.

"Dear people—dear, kind people!" she thought. "I love them for loving him. I wonder, oh, I wonder, if they will ever see me and cheer me driving by his side!"

She had chosen to wear the white dress with the pearls, though up to the last moment the grand duchess had suffered tortures of indecision between that and the blue, to say nothing of a pink chiffon trimmed with crushed roses. Before the carriage brought them to the palace doors the girl's blush had faded, and her face was as white as her gown when at her mother's side she passed between bowing lackeys through the marble Hall of Lions, on through the frescoed Rittersaal to the throne room, where the emperor's guests awaited his coming.

It was etiquette not to arrive a moment later than 10 o'clock, and a few minutes after the hour Baron von Lyndal in his official capacity as grand master of ceremonies struck the polished floor twice with his gold knobbed wand of ivory. This signaled the approach of the court from the imperial dinner party, and Leopold entered, with a stout, middle aged royal highness from Russia on his arm.

Until his arrival the beautiful Miss Mowbray had held all eyes, and even when he appeared she was not forgotten. Every one was on tenterhooks to see how she would be greeted by the grateful emperor.

The instant that his dark head towered above other heads in the throne room it was observed even by those not usually observant that never had Leopold been so handsome.

His was a face remarkable for intellect and firmness rather than for classical beauty of feature, though his features were strong and clearly cut. But tonight the sternness that sometimes marred them in the eyes of women was smoothed away. He looked young and ardent, almost boyish, like a man who has suddenly found an absorbing new interest in life.

The first dance he went through with the Russian royalty, who was the guest of the evening, and still rigidly conforming to the line of duty, which obtains in court ballrooms as on battlefields, the second, third and fourth dances were for the emperor penances instead of pleasures. But for the fifth, a waltz, he bowed before Virginia.

During this long hour there had been hardly a movement, smile or glance of hers which he had not contrived to see since his entrance. He knew just how well Baron von Lyndal carried out his instructions concerning Miss Mowbray. He saw each partner presented to her for a dance the emperor might not claim, and to save his life or a national crisis he could not have forced the same expression in speaking with her royal highness from Russia as that which spontaneously brightened his face when at last he approached Virginia.

"Who is that girl?" asked Count von Breitstein in his usual abrupt manner as the arm of Leopold girdled the slim waist of the princess and the eyes of Leopold drank light from another pair of eyes lifted to his in laughter.

## The Heart Can't Stand Rheumatic Acid Poisoning

To Free and Correct the Blood a Uric-O Treatment is Advised.

There is great danger in those sharp, shooting pains through the chest around the region of the heart. It means that poisonous uric and rheumatic acid are there ready to spring and grip tightly the muscles controlling the heart's action. Don't neglect these warnings, they are the danger signals Nature flashes to you for help. You must neutralize and drive these dangerous poisons from the system, or sooner or later they will overcome you.

The only true way to cure Rheumatism is to get at it from the inside with Uric-O. It acts with marvelous swiftness upon the muscles, kidneys and blood. Clears out the sand-like deposits in the muscles, forces the kidneys to perform those duties for which they were designed and neutralizes the acid within the blood.

Your physician will admit that this is the only true way to cure Rheumatism permanently, and should know that Uric-O is the one remedy that will do it successfully and permanently. Uric-O is a liquid taken internally, 3 times daily, and does not contain any morphine, opium or other so-called "pain deadeners." It is good for Rheumatism in any form. Sciatica, Muscular, Inflammatory and Articular Rheumatism all yield readily to Uric-O.

It sells for 75c and \$1.00 the bottle or you can obtain a trial bottle free by writing to The Smith Drug Co., 481 Smith Bldg., Syracuse, N. Y. Uric-O is sold and personally recommended in Bedford by F. W. Jordan. April 10-2t.

It was to Baroness von Lyndal that the old chancellor put his question, and she fluttered a tiny diamond spangled fan of lace to hide lips that would smile as she answered, "What, chancellor, are you jesting, or don't you really know who that girl is?"

Count von Breitstein turned eyes cold and gray as glass away from the two figures moving rhythmically with the music to the face of the once celebrated beauty. Long ago he had admired Baroness von Lyndal as passionately as it was in him to admire any woman, but that day was so far distant as to be remembered with scorn, and now such power as she had over him was merely to excite a feeling of irritation.

"I seldom trouble myself to jest," he answered.

"Ah, one knows that truly great men are born without a sense of humor. Those who have it are never as successful in life as those without," smiled the baroness, who was by birth a Hungarian and loved laughter better than anything else except compliments upon her vanishing beauty. "How stupid of me to have tried your patience! That girl, as you so uncompromisingly call her, has two claims to attention at court. She is the English Miss Helen Mowbray whose mother has come to Kronburg armed with sheaves of introductions to us all. She is also the young woman of whom the papers are full today, for it is she who saved the emperor's life."

"Indeed!" said the chancellor, a gray gleam in his eye as he watched the white figure floating on the tide of music in the arms of Leopold. "Indeed!"

"I thought you would have known, for you know most things before other people hear of them," went on the baroness. "Lady Mowbray and her daughter are staying at the Hohenlangenwald hotel. That's the mother sitting on the left of Princess Neufried—the pretty Dresden china person. But the girl is a great beauty."

"It's generous of you to say so, baroness," replied the chancellor. "I didn't see the young lady's face at all clearly yesterday. I was stationed too far away and dress makes a great difference. As for what she did," went on the old man, whose coldness to women and merciless justice to both sexes alike had earned him the nickname of "Iron Heart"—"as for what she did, if it had not been she who intervened between the emperor and death it would

have been the fate of another to do so. It was a fortunate thing for the girl, we may say, that it happened to be her arm which struck up the weapon."

"Or she wouldn't be here tonight, you mean," laughed the baroness. "Don't you think, then, that his majesty is right to single her out for so much honor?" Her eyes were on the dancers, yet that mysterious skill which most women of the world have learned taught her how not to miss the slightest change of expression, if there were any, on the chancellor's square, lined face.

"His majesty is always right," he replied diplomatically. "An invitation to a ball, a dance or two, a few compliments, a call to pay his respects—a gentleman could not be less gracious. And his majesty is one of the first gentlemen in Europe."

"He has had good training what to do and what not to do," The baroness flung her little sop of flattery to Cerberus with a dainty ghost of a bow for the man who had been as a second father to Leopold since the late emperor's death. "But—we're old friends, chancellor"—she was not to blame that they had not been more in the days before she became Baroness von Lyndal—"so, tell me, can you look at the girl's face and the emperor's and still say that everything will end with an invitation, a dance, some compliments and a call to pay respects?"

"Iron Heart" frowned and sneered, wondering what he could have seen twenty-two years ago to admire in this flighty woman. He would have escaped from her now if escape had been feasible, but he could not be openly rude to the wife of the grand master of ceremonies at the emperor's ball, and, besides, he was not unwilling perhaps to show the lady that her sentimental and unsuitable innuendoes were as the buzzing of a fly about his ears.

"I'm close upon seventy and no longer a fair judge of a woman's attractions," he returned carelessly. "A look at her face conveys nothing to me, but were she Helen of Troy instead of Helen Mowbray the invitation, the dance, the compliments and the call, with the present of some jeweled souvenir, are all that are permissible in the circumstances."

"What circumstances?" and the baroness looked as innocent as an inquiring child.

"The lady is not of royal blood, and his majesty, I think heaven, is not a roue."

"He has a heart, though you trained him, chancellor, and he has eyes. He may never have used them to much purpose before, yet there must be a first time, and, the higher and more strongly built the tower, once it begins to topple the greater is the fall thereof."

"Is it the sense of humor, which you say I lack, that gives you pleasure in discussing the wildest improbabilities as if they were events to be considered seriously? If it is I'm not sorry to lack it. In any case, it's well that neither of us is the emperor's keeper."

"We're at least his very good friends, you as well as I in my humble way, chancellor, and you and I have known each other for twenty-two years. It amuses me to discuss improbabilities, why not? Since you call them improbabilities it can do no harm to dwell upon them as ingredients for romance. Not for worlds would I suggest that his majesty isn't an example for all (Continued on Sixth Page.)

## Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Kodol For Dyspepsia has helped thousands of people who have had stomach trouble. This is what one man says of it: "E. C. DeWitt & Co., Chicago, Ill.—Gentlemen—In 1897 I had a disease of the stomach and bowels. I could not digest anything I ate and in the spring of 1902 I bought a bottle of Kodol and the benefit I received from that bottle all the gold in Georgia could not buy. I still use a little occasionally as I find it a fine blood purifier and a good tonic. May you live long and prosper. Yours very truly, C. N. Cornell, Roading, Ga., Aug. 27, 1906." Sold by Ed. D. ## HOW TO MIX IT

Directions To Prepare Simple Home Mixture.

## HIGHLY SPOKEN OF

Tells You How to Overcome Rheumatism With Simple Recipe, Which Is Easily Mixed.

A well-known authority on Rheumatism gives the readers of a large New York daily paper the following valuable, yet simple and harmless prescription, which any one can easily prepare at home.

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Mix by shaking well in a bottle, and take a teaspoonful after each meal and at bedtime.

He states that the ingredients can be obtained from any good prescription pharmacy at small cost, and, being of vegetable extraction, are harmless to take.

This pleasant mixture, if taken regularly for a few days, is said to overcome almost any case of Rheumatism. The pain and swelling, if any, diminishes with each dose, until permanent results are obtained, and without injuring the stomach. While there are many so-called Rheumatism remedies, patent medicines, etc., some of which do give relief, few really give permanent results, and the above will, no doubt, be greatly appreciated by many sufferers here at this time.

Inquiry at the drug stores of this neighborhood elicits the information that these drugs are harmless and can be bought separately, or the druggists here will mix the prescription for our readers if asked to.

## Easter in the Holy Land

Where should one look for a proper observance of Easter if not in the Holy Land? There, one would suppose, would be kept intact that spirit of rejoicing that must have swept over the country when, to the inquiring woman, the angel at the tomb replied, "He has risen; He is not here."

From the various picturesque incidents surrounding the great festival in the Church it would appear that Jerusalem has borrowed for its most elaborate ceremony that of the Pentecostal descent of tongues of fire upon the Apostles.

On this one day of the year there is real peace in Jerusalem. The Armenians become entirely friendly with the Greek Church Christians, who flock to the Church of the Holy Sepulchre for a joint celebration of Easter.

## Easter Weather Lore

According to an old English proverb, a wet Easter is not favorable to the consequent crop of hay:

A good deal of rain on Easter day Gives a crop of good grass, but little good hay.

If the sun shines on Easter morning, it will, according to the same authority shine again on Whit Sunday. A Sussex piece of weather lore goes further, declaring that if the sun shines on Easter day it will shine a little every day all the year round, while there is a corresponding notion that if it rains then it will rain a little, if only a few drops, every day during the ensuing year.—New York Herald.

DEALING WITH DELINQUENTS

We have been greatly encouraged by kindly letters from many of those whose names we were compelled to remove from our subscription list on April 1 because they were more than one year in arrears. They have paid up and are again on the list.

But not all have accepted the removal of their names as they should have done, not realizing that it was due to their own neglect.

A number of those whose subscriptions date far back of the time when the present management had anything to do with the paper openly refuse to remit. One former subscriber concludes his letter with the following paragraph:

"If you want your pay for it why, you go where the woodbine twine and the robins and the blue birds sing old hundred by note, and if you find any money there why can you have it."

Yours truly,

Surely there is truth in the statement that it takes all kinds of people to make a world.

VOTERS PROTEST

The unofficial returns of Saturday's primaries, published on page five of this issue, clearly reveal that the Republican voters of this county have entered a vigorous protest against the dictatorial methods of Congressman Reynolds as a political leader—a protest so strong as to have the characteristics of a rebuke.

The sum of the votes cast for the Republican candidates for the nomination of County Treasurer is 3,640, of which number John W. Blake, the Pennsylvania Blacksmith, had 880, and this despite the fact that he was unknown to the voters of the county and was backed by no organization. But this is not all. The total of the votes cast for Mr. Blake and Mr. Reynolds is 3,555, or 85 short of the number who voted. This simply means that 85 voters of the county who did not know Mr. Blake did not make any mark at all in the Congressional column.

The securing in this county, by Mr. Blake, unaided and practically unknown, of one vote to ever three for the man who is backed by the organization and has as his followers a young army of officeholders is a triumph for the honest toiler at the Altoona forge and a strong protest against the leadership and the candidacy of Congressman John M. Reynolds in this county.

But it was not only in this county that the protest was made. Blake carried the city of Altoona by a majority of about 350 and failed to carry Blair county by but a few hundred votes. Concerning the contest in Blair county the Altoona Gazette says:

Mr. John W. Blake made a very creditable showing in his canvass for the nomination for Congress. Mr. Blake has always been able to poll a fair vote in this county and this time he was especially fortunate from the fact that Congressman Reynolds did not put up any fight. Being absolutely sure of success, he simply took his chances. While Congressman Reynolds was attending to his duties in Washington, Blake made a pretty thorough canvass of the district.

Our esteemed contemporary is in error in stating that Mr. Reynolds was in Washington. He was here for more than a week prior to the primary, and judging by the number of borough and township henchmen that were about it is safe to say that he was manipulating the political machinery. His boasted fidelity to his "Washington duties" is largely a

myth. But suppose Reynolds had been in Washington; where was his Blair county organization?

FRUIT GROWERS WILL MEET

Important Session at Court House on Saturday, April 25.

Attention is called to the demonstration work at the County Home orchard, which has been pruned. Farmers and fruit-growers are requested to visit the orchard and keep in touch with the work. The indications are that we will have a good crop of fruit and a spraying demonstration for codling moth will be given after the blossoms fall.

The Fruit Growers' Association will meet Saturday, April 25, at 2 p. m. in the court house and we hope to see a good attendance of the members. We will discuss the codling moth and fungus disease questions and how to prevent them by spraying. The writer will lead the discussion, giving a life-history of the moth, etc. Bedford county apples are, as a rule, worm-eaten which can be prevented by spraying.

COMMENCEMENT AT SAXTON

Successful Term of School Closed With Interesting Exercises.

A large audience gathered in the Opera House at Saxton last Wednesday evening to witness the graduation exercises of the Class '08. The stage was beautifully decorated and the motto of the class, "Onward Is Our Aim," was conspicuous. Following is the program: Anthem by High School; Salutatory, "The Transforming Power of Education," W. Henry Gibson; Recitation, "The Dapple Mare," Miss Elsie M. Putt; Music by a male quartette; Recitation, "Lilie Grayson's Ride," Miss Chloe E. Gates; Oration, "Progress of Civilization," Emory E. Doneison; Duet, Misses Gates and Smith; Recitation, "The Doctor's Story," Miss Elsie L. Jones; History, Miss Gertrude Livingston; Prophecy, Miss Leila I. Stoler; Music by quartette; Oration, "Making the Most of Life," Miss Evelyn Stoler; Reading, "Alameda," Miss Onetta S. Smith; Song by Class; Vaudeictory, "The Reward of Honest Toil," Miss Lucy H. Eslinger. All did justice to themselves—and their instructors.

The diplomas were presented by Prof. H. D. Metzger who expressed himself as well pleased with the work of the class during the year just closed and wished each a happy and useful life.

VISITING SCHOOLS

"Taxpayer" Finds Good Teachers in South Bedford Township.

The following letter from a heavy taxpayer will explain itself:

South Bedford Township, April 14, 1908.

Editor Gazette:—We have four schools in this end of the township, the Arnold, Miss Edith Arnold teacher; the Penner, Miss Grace Zimmers teacher; the Poorhouse, Miss Dibert teacher; the Sweet Root, Miss Devore teacher.

Mr. James Heming, the director of this section, called upon the writer to go with him to visit the first three named schools, and I was very glad to do so for it always gives me pleasure to see and hear the workings of a schoolroom.

Mr. Heming is a fine director; he takes an interest in the schools and looks after them. If anything is needed he attends to securing it regardless of time. The people of our community hope he will accept the office for another term.

Concerning the teachers of the three schools we visited would say there may be many just as good but there are none any better than Miss Zimmers, Miss Arnold and Miss Dibert. We did not have the pleasure of visiting Miss Devore's school, it being closed on account of sickness, but we know she is a good teacher.

The writer always visits his home school and others also. I pay a big tax and think the best way to get the good of it is to help the schools along. If the citizens of each school district would visit their home schools they would readily see that it takes a great deal of energy and hard work to fill the position of teacher, and it would not be so hard to pay taxes.

A Taxpayer.

Saxton Furnace In Blast

Furnace number two at Saxton is again in operation, with J. E. Thropp, Jr., as general manager. The blast was put on at 11 o'clock last Friday night, the big furnace having been banked since January 23. It is not definitely known when the Earlston furnace will resume operations. When running full force, the annual output of the two is 225,000 tons.

Truths for the Day

A girl measures the world by her first love affair; a woman looks back and measures Heaven by it.

One may find the apples nice and pleasant to the taste and yet not wish to own the tree.

Owning a thing does not really make it yours—you may have many things which are yours though you do not possess title deeds to them.

The modern woman loves the habit rather than the horse!

Some men are overcareful, like the man who sat indoors all his life patching an umbrella that he could not use and fearing rainy days that did not come.

Faith can climb the ladder towards Heaven, while Sight lies asleep below on the cold stone.

The ancients gazed at Life from the mountain's base; we can look at it from Pisgah's summit—but, what different views these are!

The depth of misery has been reached when you can say, "All that I care to know, I know."

The past is, in many things, the enemy of mankind, for the past has no hope.

Death is the Liberator of pain, whom Freedom cannot release, the Physician of him whom medicine cannot heal, and the Comforter of him whom Time cannot console.

Jealousy is really love—lost in a mist of doubt. H. B. T.

Consider These

The short cut to happiness is goodness.

It's the things we don't say which cause the least regret.

We never know what a good time we are having till it is over.

Ambition gets along faster when unhindered by a tender conscience.

The only people who really enjoy rising early are those who don't have to.

Clear up the little tasks today, and you will be ready for the big tasks tomorrow.

A woman dislikes a man who flatters too much almost as much as the man who doesn't flatter at all.

Grass Better Than Drugs

A famous veterinary surgeon declares that grass beats all drugs in creation as a cure for sick horses and mules. Horses should have a few quarts of cut grass daily, from spring until fall. The prevalent notion that it is harmful is without foundation. Grass is to horses what fresh vegetables and fruit are to the human family.

CUBAN LETTER

"Big Doings" in Camp Columbia—Marines May be Relieved.

Camp Columbia, Havana, Cuba, April 9, 1908.

Editor Gazette:—The officers of the Army of Cuban Pacification are planning for a large field meet to take place from June 29 to July 4, inclusive. Every organization on the island will be represented. The project is receiving the greatest enthusiasm among the soldiers and the events will be hotly contested; the winners will receive handsome cash prizes which will make each event well worth contesting. There will be horse racing, relay races, broad jump, pole vault, hurdling, swimming races, diving contest, baseball games, etc. All duty will be suspended for several weeks prior to the meet, except the necessary guard and fatigue duty. There will be two preliminary meets, one in April and one in May, to pick the best men for the final contest. The sports will last for one full week and we expect "big doings" in Camp Columbia.

Tonight the Battalion of Marines will give a ball to all their friends in the pavilion in Camp; it will be the last ball of the season and a large crowd is expected. Refreshments will be served.

Last Thursday night the camp was aroused by the fire call. One of the stables, which was occupied by the Cavalry before they went to target practice, caught fire and it was only through the prompt work of the officers and men that considerable damage was not done; one-half the building was burned down.

There are a great many rumors going the rounds at present to the effect that the Marines of the island will be relieved by Infantry and Engineers. We cannot tell how true the reports are but they are raising a great many hopes in the Marines and I think there will be very few who will regret to hear the reports confirmed. The weather is now about as hot as Bedford county in the middle of August, the dust is very thick and we have had no rain for several months.

Very truly,

### Mann's Choice

April 16—John Kegg and son have changed their boarding place from Croft's to J. Struckman's, northwest of town.

Mrs. Ambrose Lehman of Altoona was a guest at the home of her sister, Mrs. F. M. Suter of this place, for a few days.

The effect of *Scott's Emulsion* on thin, pale children is magical.

It makes them plump, rosy, active, happy.

It contains Cod Liver Oil, Hypophosphites and Glycerine, to make fat, blood and bone, and so put together that it is easily digested by little folk.

ALL DRUGGISTS: 50c. AND \$1.00.

#### HINTS FOR THE HOUSEKEEPER

To purify water drop a little charcoal into it.

Clean a chocolate grater by grating a bit of stale bread, not by washing.

In poaching eggs, stir the water till it is whirling rapidly. Then drop your eggs in quickly and the edges will be round and smooth.

A useful kitchen salt-shaker may be made of a can with holes made in the lid. The holes may be made with small nails, tacks or darning needles.

To wash dishcloths use water containing a little ammonia. Also put a small amount of ammonia into the water with which you scrub linoleum.

A mixture of kerosene and ammonia cleans porcelain bath tubs and sinks instantly, and does not injure them, as gritty or acid substances do.

Boil grimy, old pans and utensils in soft water with plenty of soap in it. Let them remain in the hot water a half hour. Then wash and dry thoroughly.

If the clock needs cleaning, put a piece of cotton saturated with kerosene on the floor of it, and the fumes arising will loosen the dirt and give the wheels a new lease on life.

To remove a stopper from a bottle, hold it in the hinge of the door, slowly move the door until it takes hold of the stopper; then turn the bottle. This will loosen a glass stopper without breaking it.

Silver which has become very much blackened can be cleaned to look like new by boiling about half an hour in two quarts of water to which has been added two table-spoons of sal soda.

If your floor matting has faded, but is not worn, give it a coat of varnish, in any desired shade of varnish stain, and it will wear longer and look fine.—Woman's Magazine.

Kennedy's Laxative Cough Syrup—the cough syrup that tastes nearly as good as maple sugar and which children like so well to take. Unlike nearly all other cough remedies, it does not constipate, but on the other hand acts promptly yet gently on the bowels, through which the cold is forced out of the system, and at the same time it allays inflammation. Always use Kennedy's Laxative Cough Syrup. Sold by Ed. D. Heckerman.

Friend's Cove Reformed Church Services as follows: At Trinity—Saturday, April 18, services preparatory to the celebration of the Lord's Supper 10 a. m. April 19, Sunday school at 9 a. m.; Communion at 10 o'clock; subject of discourse, "The Day of Gladness." Offerings for the apportionment.

At Brick church—Saturday, meeting of class in catechism 1:30 p. m.; at Charlesville, 3 p. m.; April 19, Sunday school 9 a. m.

At Rainsburg—Catechetical class Saturday 8 p. m.; April 19, Sunday school 9 a. m.; preaching at 7:30 p. m.; subject of sermon, "Humanity's Endless Joy."

Easter Monday at 9 a. m., at Brick church, meeting of Joint Consistory. Chas. E. Rupp, Pastor.

#### GO TO THE RESCUE

Don't Wait Till it's Too Late—Follow the Example of a Bedford Citizen.

Res at the aching back. If it keeps on aching, trouble comes.

Backache is kidney ache.

If you neglect the kidneys' warning.

Look out for urinary trouble—diabetes.

This Bedford citizen will show you how to go to the rescue.

Mrs. Samuel Wheatstone, living on John St., Bedford, Pa., says: "It is now three years since I was cured by the use of Doan's Kidney Pills. I was feeling very nervous and depressed at the time I began their use, and the pains in my back at times were very severe. Doan's Kidney Pills, which I obtained at Irvine's Drug Store, cured me in every way, the pains ceased and I began getting stronger. Finally the trouble left me entirely and I have not been bothered since. I am glad to acknowledge the benefits derived from the use of Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. April 17-21

God's Temples

In brave array of tender green the woods are decked

And for the blessed Easter day are flower-flecked

All perfumes of the early spring hang on the air

Throughout the woods cathedral peace reigns everywhere.

#### Easter Used to Last Eight Days

In the ancient church the celebration of Easter lasted eight days, but after the eleventh century the time was limited to three days, and soon again reduced to two days. It was formerly the favorite time for performing the rite of baptism. The courts of justice were closed, and alms distributed to the poor and needy, who were even feasted in the churches. Slaves were set free, and as the fasting of Lent was over the people gave themselves up to every enjoyment.

#### AN INSIDIOUS DANGER

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Remedy at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. Ed. D. Heckerman.

#### Don'ts For Everybody

Don't eat when fatigued or overheated.

Don't bathe the body for at least an hour after eating.

Don't eat an excess of sugar, sweets and starchy foods.

Don't eat foods that disagree with you.

Don't be gloomy at mealtime.

Don't eat too much of highly seasoned food.

Don't eat between meals habitually, and learn to eat fruit before breakfast.

**Free from Alcohol**

Since May, 1906, Ayer's Sarsaparilla has been entirely free from alcohol. If you are in poor health, weak, pale, nervous, ask your doctor about taking this non-alcoholic tonic and alterative. If he has a better medicine, take his. Get the best always. This is our advice.

**Ayer's**

A sluggish liver means a coated tongue, a bad breath, and constipated bowels. The question is, "What is the best thing to do under such circumstances?" Ask your doctor if this is not a good answer: "Take laxative doses of Ayer's Pills."

"Generally debilitated for years. Had sick headaches, lacked ambition, was worn-out and all run-down. Burdock Blood Bitters made me a well woman."—Mrs. Chas. Freitoy, Moosup, Conn.

#### The Toiler's Easter

Ninety-eight thousand men, women and children worked ten and twelve hours a day for the success of the Easter parade in New York City. It is the toil's colossal tribute to gaiety.

In the busy multitudes of those who labor in Lent that for others in New York City Easter may be a joyful show are 80,967 tailors and seamstresses, 11,120 milliners, and 4,711 makers of artificial flowers.

Their joy in Easter is that it brings them more work and more pay.

#### IMPORTANT DECISION

It is important that you should decide to take only Foley's Honey and Tar when you have a cough or cold as it will cure the most obstinate racking cough and expel the cold from your system. Foley's Honey and Tar contains no harmful drugs. Insist upon having it. Ed. D. Heckerman.

#### New York's Easter Collection

There are about 400 churches of one kind or another in Greater New York, and their total collections on Easter morning reach about \$250,000. Last Easter twenty of the larger churches had collections of \$2,000 apiece, seventy-five averaged only \$500 apiece, and the remainder found much less than \$500 in the contribution boxes.—New York Times.

Foley's Orino Laxative is best for women and children. Its mild action and pleasant taste makes it preferable to violent purgatives, such as pills, tablets, etc. Cures constipation. Ed. D. Heckerman.

A big cut or a little cut, small scratches or bruises or big ones are healed quickly by DeWitt's Carbolic Witch Hazel Salve. It is especially good for piles. Get DeWitt's. Sold by Ed. D. Heckerman.

# A RACE FOR NEW TRADE

## Is Now Going on at This Store

We find that we need more new customers and in order to get new trade we have sacrificed a good part of our profits to show that we mean just what we say. The prices on our whole stock have been adjusted in such shape that anybody can see at a glance what a saving awaits them here.

## Our Clothes all Bear a New Price Tag.

Our clothes were always cheaper and better than other stores, yet this season you'll find the saving even greater than before. We want everybody's trade and if everybody knew us and would try us there would hardly be anything left for other stores to do. Our business has been growing month by month and we see new faces every day of the week—good evidence of our way of doing business.

## See Our Men's Suits at \$10.00.

You will say that \$15 ought to be the price. All the new shades in Tan, Brown and Gray, besides Blue and Black. More style cannot be put into a suit at any price.

## BOYS' SUITS

## For Easter Wear and After.

For little fellows—Blouse Suits in Blue Serge and Brown Checks and Stripes at \$3.00—for the same kind you have been in the habit of paying \$5.00; Larger Boys' Suits, \$2.00 to \$5.00.

## New Styles In Oxfords and Shoes for Men, Women and Children.

See our window display. Come and look over our whole stock. Our prices are always within reach of all. At any rate, call and see what our goods are like and learn how much cheaper and how much better goods you can get at this store.

## Bulletin.

### THE FORTY BEACHES OF NEW JERSEY.

The one hundred and twenty-five odd miles along the New Jersey coast line from Long Branch to Cape May presents the greatest pleasuring section in the United States.

Upon the bluffs of the northern end and the gently shelving sands of the southern end are located forty resorts which entertain during the spring and summer season millions of pleasure seekers.

At no time in the year is this section more delightful than during the spring and early summer months. One who has not seen them at this season would marvel at their delights. The great pine belt, which extends through the center of New Jersey, fills the air with life-giving ozone, which combined with the salty tang of the sea and the open air exercise possible at all times, is exhilarating and tonic to the highest degree.

Long Branch, with its beautiful cottage-neighbors, West End, Hollywood, and Elberon; Deal and Allenhurst, largely devoted to cottage life; Asbury Park and Ocean Grove, attracting thousands yearly; Avon, Belmar, Como, Spring Lake, and Sea Girt, are a galaxy of attractive places upon the bluffs where "the country meets the sea."

Then the Barnegat Bay section, where Point Pleasant, Sea Side Park, Island Heights, Barnegat City, and Beach Haven, with other smaller places nearby, welcome the summer sojourner.

Atlantic City, with its seven miles of beach and drives, and its charming suburbs, leads the island resorts, separated from the main land by the great salt marshes.

Ocean City, Sea Isle City, Avalon, and Stone Harbor; Anglesea, Wildwood, Holly Beach, and Wildwood Crest also have a large summer population.

And Cape May, with its new million dollar hotel and its wonderful improvements makes a fitting climax and holds a high place among the forty beaches.

The Pennsylvania Railroad is the direct route to all of these resorts from all sections of the country. Its splendid train service makes each of them neighbor to all the rest and to the world at large.

### Beautiful Bracelets

In all the numerous articles contained in our store the bracelet has been the most active seller for some time past. We do not mean that we have sold more bracelets than silverware, but we do mean that we have sold more bracelets than any one piece of silverware. It is because the bracelet is the most stylish piece of jewelry that is now being worn. Our line is a most attractive one in the latest and most charming effects and our prices will be found most reasonable and enticingly low. From \$3.50 up.

### LETTER TO E. S. DOTY Bedford, Pa.

Dear Sir: A bank messenger lost a small coin. He set his bag down and looked for it. Found it, but somebody had run-off with his bag. A man who is going to paint had better look-out for his gallons. Devote is the least-gallons paint.

It's gallons that cost; it isn't the price of a gallon. With one paint, 10 gallons is plenty; another, 11 or 12 or 13 and so on to 22 gallons; and every gallon has to be paid-for and painted—\$2 to \$4 a day for painting stuffed-out with some sort of white-wash. The less the price of a gallon, the more the gallons.

Bank messengers better look-out for their bags and not stop to hunt for small coin; and property-owners better look-out for the gallons that make the expense, and not for the price which has nothing to do with it.

Yours truly
